MarinaNet

MarinaDocs

Problem

- Emergence of complex carbon regulations
- Data is stored in a scattered manner

Solution

- **MarinaNet** - Noon report management & compliance solutions
- **MarinaDocs** - Document management AI i.e. safety manuals, commercial contracts, BDN etc.
- (In development) **MarinaValue** - Vessel valuation and market analysis i.e. scenario analysis on S&P and newbuilding

Key Features

- We focus on providing solutions specific to the market needs based on our deep domain knowledge and application of AI

Business Model

- Noon report parsing SaaS
- EUA brokerage & market report
- Biofuel brokerage
- AI system integration
- (In development) Vessel profit maximizing AI agent SaaS

Business Snapshot

- 2025 revenue USD 8.45M
- USD 1.8M government grant secured
- Major clients: PanOcean, Sinokor SM, Samsung HI etc.
- Ongoing PoC: CMA CGM, Hyundai Samho, J Ocean
- AI Advisor for Singapore Shipowners Association (SSA)
- Winner of OpenAI competition 2023

Seeking Opportunities

- Networking with potential customers
- Networking with potential data partners
