paywork

AI ENGINE

KEEPER AI

Illustrative workflow: call → next tasks

Problem

- Industrial orders and quotes run on calls.
- Follow-ups get lost between calls and files.

Solution

- Keeper AI turns customer calls into next actions in Paywork.
- Customer history gives every follow-up its context.
- We are extending the workflow to quotes and payments.

Key Features

- Capture calls and surface the next task
- Search past conversations in everyday language
- Prompt follow-up before a customer is forgotten

Business Model

- Paywork (non-AI): KRW 13,900 / month
- Paywork Solo + Keeper AI: KRW 33,000 / month
- Team: multi-user plan (planned)
- Enterprise: custom contract (planned)

Business Snapshot

- 1,582 users
- 93% annual paid retention (Paywork)
- 1.3M transaction records since 2022

Seeking Opportunities

- Singapore industrial pilots • local partners • Pre-A investors
